Newport voted wet by a big majority at the last election and in the telegram the Mayor said Newport was entitled to modification of the order because local demobilization is complete, because Newport is as clean as any city in the United States, and because refusal to modify the order was an unjust and unreasonable interference with local rights. The argument of Mayor Mahoney is based upon the end of the war and the termination of an emergency which caused the dry some to be created. Former Mayor Frederick P. The express officials refused delivery after it had arrived at Newport.
The summer colony is stirred by Mayor Mahoney's telegram even though it is expected that Becretary Dendels will refuse to act.
